I listen exclusively to KLOVE radio in my car and in my office. The commercial free christian radio provides not only a safe atmosphere for my kids but a learning and growing one as well. KLOVE has positive impact on me, my kids, those riding in my car and working with me. I believe KLOVE radio is in the best public interst providing family friendly programming with wholesome values and a postiive and encourageing impact on the community. These days those things are hard to come by.
